

EMERGENCY TARIFF BILL PASSES HOUSE AFTER LONG FIGHT

Conference Report, Passed by Senate, Is Adopted by Vote of 245 to 97.

MEASURE NOW GOES TO HARDING FOR SIGNATURE

As Finally Carried, Resolution Embodies Duties on Thirty-Odd Products of Farm.

WASHINGTON, May 23.—The long battle in Congress over the emergency tariff bill ended today when the House, by a vote of 245 to 97, adopted the conference report to which the Senate already had agreed.

The emergency conference report, which is expected to be signed by President Harding soon after his return from New York.

The emergency conference report, which is expected to be signed by President Harding soon after his return from New York.

At its first appearance and through the long debates that followed, opponents of high tariff protection.

As finally passed, it carries tariff duties on thirty-odd products of the farm, together with compensatory duties on agricultural machinery.

Says 5 Can Live One Year In New York on \$2,263

(By United News.) NEW YORK, May 23.—In \$2,263 a family of five can "get along" in New York for a year, but not with much left to buy coal for the steam-yacht or champagne for the household.

These figures were presented in an analysis of living costs by Dr. William E. Mosher, of the Bureau of Municipal Research, and upon them will be based the wage scales for city employees.

Dr. Mosher reported that it costs a spinster \$1,118.94 a year to live.

In the family budget he allows five a month for a maid, but doesn't offer to find one at the price.

Britain, first of the nation's commercial covenants. It represented an effort to escape embroilment with the world system, and in the period when we were weak to support a foreign conflict, it served to postpone that disaster.

PRESIDENT SHOWS DEEP EMOTION IN MEMORIAL SPEECH

(Continued From First Page.) That reached his heart, however, was that given by young America—the children school children who lined the three miles of the route to the Brooklyn armory.

These children, granted a half-holiday, stood in a drizzling rain, waving flags and cheering wildly as the presidential car came in sight.

The youngsters of New York's lower East Side, with its polyglot population, gave him the loudest greeting. Once, the President ordered his car stopped while he stepped out into the rain and shook hands with a number of little girls.

"I never knew there were so many children in America," the President said. "It was wonderful."

Another demonstration of youthful patriotism that pleased the President was a serenade by the boys' band of 400 pieces. Returning to his hotel in Manhattan from the regimental review, he ordered his car stopped while he spoke a few words of appreciation to the young musicians.

PREMIER OF FRANCE DEMANDS FACTS OF TROOP OPERATIONS

(Continued From First Page.) In Upper Silesia would be regarded as a cause for war, and there will be a demand that he act accordingly.

Should the German government disavow the troops, "a wait and see" policy might be adopted by the French Cabinet, and be excused by the press, the public and the Deputies.

Supporters of the government have contended throughout the Upper Silesian troubles that it was France's duty to ask for that sacrifice, and President Harding did not pretend that the millennial day has come, but I can believe in the possibility of a nation being so righteous as never to make a war of conquest, and a nation so powerful in righteousness that no one will dare invoke her wrath. I wish for such an America.

The President said: "I have come here today thinking that perhaps I was giving some expression of that sentiment in the hearts of the republic to the thing that is felt in the hearts of friends in this extraordinary event."

"There grows on me the realization of the unusual character of this occasion. Our republic has been at war before. It has asked and received the supreme sacrifice of its sons and daughters, and faith in America has been justified. Many sons and daughters made the sublime offering and went to hallowed graves as the nation's defenders. But we never before sent so many to battle under the flag in foreign land, never before was there the impressive spectacle of thousands of dead returned to find eternal resting places in the beloved homeland. The incident is without parallel in history, that I know.

"Never a death, but somewhere a new life; never a sacrifice, but somewhere an achievement; never a service, but somewhere an achievement.

"These had served, which is the supreme inspiration of dying. They have earned our everlasting gratitude, which is the solace in dying.

"I find a hundred thousand sorrows touching my heart, and there is ringing in my ears like an admonition eternal, an insistent call—it must not be again; it must not be again.

"God grant that it will not be and let a practical people join in co-operation with God in the end that it shall not be."

7 HURT AS STILL EXPLODES IN BROOKLYN TENEMENT

(By United News.) NEW YORK, May 23.—Seven persons were injured and burned shortly before midnight tonight when a gas pipe on the second floor of the house 137 Third Avenue, Brooklyn, exploded, setting fire to the building and practically wrecking it.

Two Italians, who the police say were operating the still at the time of the explosion, were seriously injured. They are prisoners in hospitals, charged with felonious assault.

ELECTRIC STORM DISTURBS WATER PRESSURE IN CITY

(Continued From First Page.) The electric power to the pumping station at the reservoir, the pumps were stopped for more than an hour as a result of a fuse blowing out. Low water pressure was noticeable all over town during that period, especially in the high sections of the city, where the water found itself practically unable to climb its own way.

Residents of the West End, however, were not so inconvenienced, as they are entirely dependent for their supply on the tank in Grand Park, into which water is pumped from the reservoir. When the pumps were put out of commission as the result of trouble at the power plant, their supply was completely cut off.

Department of Public Works officials had men on the job as soon as the accident was reported, and in the course of an hour the damage had been repaired. As far as is known, the city suffered no other inconvenience, nor was any other property destroyed or damaged, as a result of the storm.

REPEAT PLAN TO FORM NAVAL BASE AT ALAMEDA

(Continued From First Page.) Senator Lenroot, Republican, Wisconsin, urged economy in naval appropriations. The former, in an address about three hours, charged that "misguided" influences are working large appropriations for profit contracts. He charged existence of an "army ring" and in this connection named Bethlehem, Alvin and Carnegie steel companies. He also criticized the navy league and the National Security League, for their activities in behalf of armaments.

Senator Lenroot said there was no possibility of war with any great power in the next five years. For this reason, he said, a larger force would be needed to man ships which would be "junked" in a few years.

Referring to what he termed the "referendum" of the last election, Senator Lenroot added: "If this bill could be submitted to a popular vote it wouldn't get as many votes as Cox. It wouldn't carry a single State. The country does not support the committee in these increased appropriations."
